My horse experience started as a young child my mother had horses, Sandra Hawkensen, and my grandmother had horses, Dorothy Currier. Naturally I stepped into horses as a passion and continued as a career choice. I am a graduate from New Hampton School and continued my education at Plymouth State College. I played two Varsity sports Women's Lacrosse and I skied for Plymouth State College going to two Nationals. I graduated with a Health Minor and Majored in Fitness and Rehabilitation. In 2001 I purchased 160 acre property in Thornton, NH which is now called Deer Creek Farm LLC

I have always made Eventing my base of horsemanship however I feel all the disciplines have an important component to add. I enjoy the eventing aspect because of the balance of riding and horse management. I feel that students need to balance their riding ability with their knowledge of their mounts.
